

TiPovej! About us

TiPovej! is an embassy of creative society.

It is actively involved in developing ideas and fostering creative thinking by setting up a creative environment and with the support of creative individuals.

It treats creativity as an important personal, commercial and social value.

TiPovej! is an excellent point of origin for the young to achieve personal success. It helps them on the path to self-fulfilment by teaching them how to think creatively and implement ideas.

TiPovej! carries out the Brain Fitness workshops and Brain Wellness seminars at schools and non-governmental organisations. These activities help the participants to search for their original creativity, teach them creative thinking and teamwork in order to creatively solve problems.

TiPovej! organises educational courses for company employees, where it provides a favourable climate to foster creative thinking, an important asset for the success of a company.

Through national and international projects, independently or with partners, TiPovej! uses creative thinking, seeks original solutions, uses the methods of informal learning, promotes creativity as a value and helps individuals in attaining self-fulfilment.

TiPovej! operates in accordance with the Lisbon Strategy (2002) that focuses on key competencies, stressing self-fulfilment and lifelong personal development as the priorities.

TiPovej! proves its excellence with the NGO Quality Standard, created for non-governmental organisations on the basis of the ISO 9001 standard.

TiPovej! – Institute for Creative Society was established in 2005 in order to promote the culture of creativity, provide educational courses for implementation of ideas and contribute to the formation of a creative society. Prior to that, TiPovej! was since 1999 operating as a project of the Slovenian Office of Youth.

TiPovej! was in 2007 among the founders of the international European UNIQUE network (United for Innovation and Quality in Education), which has the mission to support lifelong informal learning in order to develop democracy and active citizenship at all levels.

TiPovej! believes that the people who are able to clearly outline their ideas have a greater chance of success. The greater the number of people who can implement their ideas the more developed and successful the society.

TiPovej! wants to make Slovenia a favourable environment for implementing ideas, create a social space where good ideas turn into projects, organisations and become reality as well as establish a safe and tolerant environment for adopting and implementing ideas.

The TiPovej! team is inspired by:

-

Changing the society for better.

Opening spaces for ideas.

Facilitating creativity.

Addressing and motivating individuals.

-
